The Executive

Retractable power screen for oversized doors, windows and openings

PHANTOM™
SCREENS

Features and specification

Screen size

WIDTHS	HEIGHTS (Pull Lengths)
711mm–762m (28"–25')	610mm–4.88m (2'–16')

Phantom Screens fit most standard and oversized door applications.

Colours

Phantom Screens has a range of signature colours available from stock held in our Canadian warehouse. Ask your distributor for details.

A full range of standard paint colours are available on a made-to-order basis. In addition, thanks to advanced colour-matching technology, Serene Screens are also available in virtually any colour or wood grain, through our Custom Coatings Programme.

Whilst every effort has been made to reproduce the actual colour of the product, variations may occur in printing. These colour samples are to be used as a general colour guide only.

Some sizes and colours may be subject to longer lead times.

Link indoor and outdoor living spaces with an Executive Screen. Open up your home's interior in style, provide shade from the sun, protection from pests, improved ventilation and enhanced privacy. These retractable screening solutions can be installed in all oversized openings, from patios and terraces, to balconies and pool and garden rooms. Executive Screens are a perfect addition to any home or business, offering a complete range of screening and shading solutions in one adjustable product.

Features and benefits

- Provides protection from insects and harmful UV rays
- Offers the most effective and attractive screening solutions for large areas
- Promotes fresh air circulation
- Provides enhanced privacy
- Retracts out-of-sight when not in use
