Stock colours

Infinity Screens come in 3 standard aluminium colour options as shown below. Plastic parts are available in black finish.

Application options

- Folding wall systems
- Oversized openings
- Covered patios & outdoor rooms
- Bi-folding doors

Circulate the fresh air and let in that cool summer breeze without any nuisance insects coming into your home. No matter the size of your door, window or opening our Infinity fly screen can be made to fit it. Phantom Screens provide an innovative way to cool your home whilst enhancing privacy and protection from insects and the sun. Experience an enriched outdoor/indoor living experience. Infinity Screens allows you to screen folding wall systems or large openings without limitations on the span or width. The maximum number of panels is virtually unlimited, and any of the 3ft panels can be designated as an entryway.

Features and benefits

- Screens are discreet, remain out of sight until needed and blend seamlessly with your décor
- Allows full ventilation and fresh air circulation
- Keeps insects out and away from areas of relaxation and food preparation.
- Protects from harmful UV rays
- Allows screening of large openings to make spaces of outdoor living more comfortable.
- Low profile bottom rail, that sits flush with the floor and can be walked over
- Durable pleated mesh technology
- Low maintenance with an easy clean design
- Easy to use with smooth and safe operation
- Assembly and Installation by experienced professionals ensures superior quality
- Limited Lifetime Warranty guarantees peace of mind*

*(excluding mesh & tension wire)

Components

- Slide bar, housing and track made from high quality aluminium
- Full length, built-in strip magnets secure screens
- Connector plates keep the panels stable
- Wire tension system keeps mesh tight
- Polyester mesh ensures enhanced durability
- Anodized finish resists fading and chipping
- Sturdy, UV resistant fittings
