	1.83m–2.44m (72"–96")		

Phantom Screens fit most standard and oversized door applications.

Stock colours

Available from our UK warehouse.

Special colours and colour matching

We can manufacture screens for you in any colour to match your home's interior colour scheme. Either tell us the RAL or BS paint colour reference, if you know it, or provide a sample of the colour for us to match.

Wood grain screens

We currently have 6 standard wood grain finishes (light oak, golden oak, mahogany, elm, cherry wood and rose wood), but we can also provide a matching service, from a wider selection of wood grain finishes, if required.

Mesh and fabric options

Our screens are available in a range of mesh and fabric options: such as our standard insect, anti-midge and anti-pollen meshes; solar screening fabrics in a variety of grades and privacy screens including full black-out fabrics.

Please note that special colour and wood grain finishes, along with some of our more unusual mesh and fabric options, are subject to longer lead times.

Let cool summer breezes into your home, but keep the insects at bay, with North America's leading retractable door screen. Phantom Screens provide an innovative way to circulate fresh air whilst enhancing privacy and protecting from insects and sun. Engineered to smoothly retract out-of-sight when not in use, Phantom Screens are at home in any setting – their subtle styling makes them ideal for sliding, in-swing, out-swing and double-French doors.

Features and benefits

- Keeps out insects and protects from harmful UV rays
- Offers the most effective and attractive screening solutions for doors
- Promotes fresh air circulation
- Low profile housing blends in with your existing door frame
- Remains out of sight until needed
- Fits most door applications and sizes
- Comes in a variety of colours and finishes to match your home's interior decoration
- Spring tension technology holds screens tightly in place
- Absorbs impact without sagging or tearing
- Limited Lifetime Warranty guarantees peace of mind
- Assembly and installation by experienced professionals ensures superior quality

Components

Phantom's high-quality components ensure years of trouble-free operation

- Slide bar, housing and track system made from robust high quality extruded aluminium
- Baked-on acrylic finish resists fading and chipping
- Sturdy, UV resistant handle and fittings
- Durable PVC-coated fibreglass mesh
- Solid spring mechanism to retract screen
- Full length, built-in strip magnet secures double door screens
- Soft close breaking system prevents fast recoil
- Manual pin lock available to secure screens on double doors
