# The Serene

Retractable screen for windows

PHANTOM™  
SCREENS

# Features and specification

## Screen size

WINDOW WIDTHS	WINDOW HEIGHTS (Pull Lengths)
305mm (12") – 2m (78")	Up to 2m (78")

Phantom Screens fit most standard and oversized door applications.

## Stock colours

Available from our UK warehouse.

## Special colours and colour matching

We can manufacture screens for you in any colour to match your home's interior colour scheme. Either tell us the RAL or BS paint colour reference, if you know it, or provide a sample of the colour for us to match.

## Wood grain screens

We currently have 6 standard wood grain finishes (light oak, golden oak, mahogany, elm, cherry wood and rose wood), but we can also provide a matching service, from a wider selection of wood grain finishes, if required.

## Mesh and fabric options

Our screens are available in a range of mesh and fabric options: such as our standard insect, anti-midge and anti-pollen meshes; solar screening fabrics in a variety of grades and privacy screens including full black-out fabrics.

Please note that special colour and wood grain finishes, along with some of our more unusual mesh and fabric options, are subject to longer lead times.

Circulate fresh air and keep out insects without spoiling your view. Serene retractable window screens are suited to most window applications, including in-swing, out-swing, casement, awning, sliding and tilt & turn windows. With features such as a sophisticated mesh retention system, sturdy yet sleek design and unlimited colour options, Serene Screens are so discreet, they won't spoil your view or your home's styling.

## Features and benefits

- Keeps out insects and protects from harmful UV rays
- Offers the most effective and attractive screening solutions for windows
- Promotes fresh air circulation
- Low profile housing blends in with your existing window frame
- Remains out of sight until needed
